

Aakash Modi

Assam, Dhubri, India • +91 781-195-0838 • work.aakash.modi@gmail.com • [linkedin](#) • [Github](#) • [Portfolio](#) • [Blog](#) • [X](#)

Software Developer pursuing B.Sc. Artificial Intelligence, skilled in Java, Python, React.js, and MySQL. Experienced in building full-stack applications with a problem-solving mindset. Also knowledgeable in ethical hacking, CTFs, and security testing for secure software development.

Experience

Generative AI Intern

[July 2025 - Sept 2025](#)

Techverse Innovations Pvt. Ltd.

- I learned how Generative AI works internally, including how modern models like **Transformers** and **LLMs** generate **text**, **images**, and **ideas**.
- I explored different generative systems such as **ChatGPT**, **Grok**, and V-series models to understand how they create new content from patterns.
- I gained clarity on diffusion models, **GANs**, and how prompt engineering shapes the output and creativity of these AI systems.

SKILLS & OTHER

- **Programming Languages:** Java · Python · JavaScript · Bash
- **Web Development:** HTML · CSS · Tailwind CSS · React.js
- **Database :** MySQL
- **Cybersecurity:** Ethical Hacking · Network Security
- Nmap · Wireshark · Metasploit · Burp Suite · Gobuster
- **Version Control:** Git · GitHub
- **Tools & Platforms:** VS Code · IntelliJ IDEA · Postman

DSA & Algorithms

- Arrays
- Sliding Window
- Two Pointers
- 3Sum
- Hash Maps
- Binary Search

Projects

Software Engineer - PYQs Website

2024

- Developed and deployed a dedicated web platform pyqsctuap.netlify.app to help students access and share Previous Year Question Papers (PYQs).
- Implemented features for **downloading and uploading** question papers, enabling collaborative knowledge sharing among students.

Cybersecurity Experience & CTFs

2025

- Completed several **TryHackMe CTF rooms** covering **web exploitation**, **network enumeration**, **privilege escalation**, and **forensics**, and documented detailed **writups** on my [Blog](#).
- Hands-on experience in **penetration testing** labs using **Nmap**, **Gobuster**, **Burp Suite**, **ZAP**, and performing **web-app testing (SQLi, XSS)**.

AI-Enabled Attendance System - University Project

2025

- Built a smart attendance system with mobile form and live photo capture, using AI face verification to prevent proxies and ensure authentic attendance.
- Developed a scalable workflow with **Flask**, **MySQL**, and **AI image** verification for secure logs and fast identity checks.

Workshops & Certifications

Flutter & Android Development Internship

[Jan 2024](#)

Dr. Pallamsetti Innovations – One-week hands-on internship in **Flutter mobile app development**.

International Workshop – Data Science with Python

[Feb 2024](#)

MVGR College of Engineering & Brainovision – Completed a 5-day workshop on **Python-based data science**, including data handling, analysis, and practical implementation.

National Level STTP – Java Full Stack with React & AI

[Dec 2024](#)

TryHackMe

[Sept 2025](#)

Completed multiple CTFs and walkthroughs (Web Exploitation, Privilege Escalation, Network Enumeration)

Education

Bachelor of Science (B.Sc) in Artificial Intelligence

[2025](#)

Central Tribal University of Andhra Pradesh | *Currently Pursuing (3rd Year, 6 Semester)*
